

## Primary Care Commissioning Committee

---

premise situation is addressed as the current premises are not fit for purpose and contravene a number of health and safety regulations.

The CCG currently has more than one practice in health centres that have not merged.

NHS England have stated they be advised by the CCG if the development can proceed with them as two practices.

### **Recommendation**

The PCC is asked to note the change in circumstances and agree to maintain its support of the premise development and support the two practices moving into the new premises as two practices for the first few years.

**John Gaskins**

**Deputy Chief Finance Officer**

**Michelle Ashton**

**Senior Commissioning Manager Primary Care**

**Phil Hargreaves**

**Head of Estates**
